Advantage![®] is: GSAAdvantage.gov

Schedule Title: **MULTIPLE AWARD SCHEDULE**

Service Codes:

FSC/PSC Class D302 IT AND TELECOM- SYSTEMS DEVELOPMENT

Systems Development Services

FSC/PSC Class D306 IT AND TELECOM- SYSTEMS ANALYSIS

Systems Analysis Services

FSC/PSC Class D307 IT AND TELECOM- IT STRATEGY AND ARCHITECTURE

Automated Information Systems Services

FSC/PSC Class D308 IT AND TELECOM- PROGRAMMING

Programming Services

FSC/PSC Class D316 IT AND TELECOM- TELECOMMUNICATIONS NETWORK MANAGEMENT

IT Network Management Services

FSC/PSC Class D399 IT AND TELECOM- OTHER IT AND TELECOMMUNICATIONS

Other Information Technology Services, Not Elsewhere Classified

Contract Number: GS-35F-373DA

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov

Contract Period: June 24, 2021 to June 23, 2026

Current through PO-0019, effective June 24, 2021

CommDEX LLC

2400 Herodian Way Suite 360
Smyrna, GA 30080-8581
770.349.0400
770.242.5922 Fax

<https://www.commdex.com>

Business size: Small business concern and Minority Owned Business.

CUSTOMER INFORMATION:

1a. Table of awarded special item numbers with appropriate cross-reference to item descriptions and awarded prices:

Special Item Number 54151s: Information Technology Professional Services

Special Item Number OLM - Order-Level Materials are supplies and/or services acquired in direct support of individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level.

OLMs are Purchased under the authority of the FSS Program, Unknown until an order is placed, Only authorized for use in direct support of another awarded SIN, Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN), OLMs are not open-market items, OLMs are not awarded under ancillary supplies/services or other direct cost (ODC) SINS (these items are defined, priced, and awarded at the FSS contract level).

The Order-Level Materials SIN is only authorized for use in direct support of another awarded SIN, Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA, Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF)

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract:

54151S Project Administrator I, \$41.46 per hour.

OLM – Determined at the ordering level.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided:

Commercial job titles, experience, functional responsibility and education: See price list.

Hourly Rates: See page 13.

2. Maximum order: \$500,000 for 54151S and the cumulative value of OLMs in an individual task or delivery order cannot exceed 33.33% of the total value of the order.

3. Minimum order: \$100.00

4. **Geographic coverage:** Continental United States and the District of Columbia.
5. **Point of production:** Smyrna, GA, Gwinnett County.
6. **Discount from list prices or statement of net price:** The prices displayed are net prices.
7. **Quantity discounts:** Additional .5% for single purchase orders exceeding \$250,000 and 1% for single purchase orders exceeding \$500,000.
8. **Prompt payment terms.** Net 30.
9. **Foreign items:** Not applicable.
- 10a. **Time of delivery:** As mutually agreed.
- 10b. **Expedited Delivery:** Not applicable.
- 10c. **Overnight and 2-day delivery:** Not applicable.
- 10d. **Urgent Requirements:** The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery.
11. **F.O.B. point:** Norcross, GA.
- 12a. **Ordering address:** 2400 Herodian Way Suite 360, Smyrna, GA 30080-8581
- 12b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.
13. **Payment address:** 2400 Herodian Way Suite 360, Smyrna, GA 30080-8581
14. **Warranty provision:** Workmanlike manner.
15. **Export packing charges:** Not applicable.
16. **Terms and conditions of rental, maintenance, and repair:** Not applicable.
17. **Terms and conditions of installation:** Not applicable.
- 18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices:** Not applicable.
- 18b. **Terms and conditions for any other services:** Not applicable.
19. **List of service and distribution points:** Not applicable.
20. **List of participating dealers:** Not applicable.
21. **Preventive maintenance:** Not applicable.
- 22a. **Special attributes such as environmental attributes:** Not applicable.
- 22b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found: **Not applicable.**

The [EIT standards can be found at: www.Section508.gov/](http://www.Section508.gov/).
23. Data **Universal Number System (DUNS) number:** 014251149.
24. Notification regarding registration in System for Award Management (SAM.gov): **Yes.**

1. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

Title: Project Administrator I

Minimum Experience: 1 Year.

Functional Duties: Assists the IT project manager for complex communications projects. Responsible for items including project reports, meeting coordination, deliverable status, equipment inventory at the direction of the project manager.

Minimum Education: HS Diploma and 3 years of experience or Associates Degree and 1 year of experience.

Title: Project Administrator II

Minimum Experience: 1 Year.

Functional Duties: Assists the IT project manager for complex communications projects. Responsible for items including project reports, meeting coordination, deliverable status, equipment inventory at the direction of the project manager.

Minimum Education: Associates Degree and 4 years of experience or Bachelor's Degree and 1 year of experience.

Title: Project Administrator III

Minimum Experience: 3 Years.

Functional Duties: Assists the IT project manager for complex communications projects. Responsible for items including project reports, meeting coordination, deliverable status, equipment inventory at the direction of the project manager.

Minimum Education: Associates Degree and 6 years of experience or Bachelor's Degree and 3 years of experience.

Title: Project Manager I

Minimum Experience: 2 Years.

Functional Duties: Serves as the project manager for a large, complex communications project. Responsible for the overall management of all IT project deliverables and ensuring that the technical solutions and schedules are implemented in a timely manner. Performs enterprise wide IT integration planning and identifies interfaces to other functional systems, including the development of conceptual systems requirements; systems integration requirements; systems phasing plan; application consultation; problem tracking/management; and preparation and delivery of presentations and briefings on project status.

Minimum Education: Associates Degree and 4 years of experience or Bachelor's Degree and 2 years of experience.

Title: Project Manager II

Minimum Experience: 5 Years.

Functional Duties: Serves as the project manager for a large, complex communications project. Responsible for the overall management of all IT project deliverables and ensuring that the technical solutions and schedules are implemented in a timely manner. Performs enterprise wide IT integration planning and identifies interfaces to other functional systems, including the development of conceptual systems requirements; systems integration requirements; systems phasing plan; application consultation; problem tracking/management; and preparation and delivery of presentations and briefings on project status.

Minimum Education: Associates Degree and 8 years of experience or Bachelor's Degree and 5 years of experience.

Title: Project Manager III

Minimum Experience: 8 Years.

Functional Duties: Serves as the project manager for a large, complex communications project. Responsible for the overall management of all IT project deliverables and ensuring that the technical solutions and schedules are implemented in a timely manner. Performs enterprise wide IT integration planning and identifies interfaces to other functional systems, including the development of conceptual systems requirements; systems integration requirements; systems phasing plan; application consultation; problem tracking/management; and preparation and delivery of presentations and briefings on project status.

Minimum Education: Bachelor's Degree, Project Management Professional (PMP) and 8 years of experience or Bachelor's Degree and 10 years of experience.

Title: Network Engineer I

Minimum Experience: 2 Years.

Functional Duties: Provides support in the translation of business requirements into network (e.g., LAN, MAN, WAN) requirements, designs and orders. Provides in-depth engineering analysis of networking alternatives for enterprises in support of operational goals. Performs network enhancement design for medium and large-scale telecommunication infrastructures. Provides interface support to end users, operations personnel, and strategic program management.

Minimum Education: Bachelor's Degree.

Title: Network Engineer II

Minimum Experience: 3 Years.

Functional Duties: Provides support in the translation of business requirements into network (e.g., LAN, MAN, WAN) requirements, designs and orders. Provides in-depth engineering analysis of networking alternatives for enterprises in support of operational goals. Performs network enhancement design for medium and large-scale telecommunication infrastructures. Provides interface support to end users, operations personnel, and strategic program management.

Minimum Education: Bachelor's Degree & 5 years of experience or Master's Degree and 3 years of experience.

Title: Network Engineer III

Minimum Experience: 7 Years.

Functional Duties: Provides support in the translation of business requirements into network (e.g., LAN, MAN, WAN) requirements, designs and orders. Provides in-depth engineering analysis of networking alternatives for enterprises in support of operational goals. Performs network enhancement design for medium and large-scale telecommunication infrastructures. Provides interface support to end users, operations personnel, and strategic program management.

Minimum Education: Bachelor's Degree & 10 years of experience or Master's Degree and 7 years of experience.

Title: Microwave Systems Engineer I

Minimum Experience: 2 Years.

Functional Duties: Provides support in the translation of IT requirements into microwave transport requirements. Performs site selection support, path analysis, and link budgets for microwave system design. Assists in performing frequency planning and preparation of frequency coordination documents. Manages field deployments, turn-up, test, and optimization. Manages on-going capacity and traffic performance.

Minimum Education: Bachelor's Degree.

Title: Microwave Systems Engineer II

Minimum Experience: 3 Years.

Functional Duties: Provides support in the translation of IT requirements into microwave transport requirements. Performs site selection support, path analysis, and link budgets for microwave system design. Assists in performing frequency planning and preparation of frequency coordination documents. Manages field deployments, turn-up, test, and optimization. Manages on-going capacity and traffic performance.

Minimum Education: Bachelor's Degree and 5 years of experience or Master's Degree and 3 years of experience.

Title: Microwave Systems Engineer III

Minimum Experience: 7 Years.

Functional Duties: Provides support in the translation of IT requirements into microwave transport requirements. Performs site selection support, path analysis, and link budgets for microwave system design. Assists in performing frequency planning and preparation of frequency coordination documents. Manages field deployments, turn-up, test, and optimization. Manages on-going capacity and traffic performance.

Minimum Education: Bachelor's Degree.

Title: Communications Systems Engineer I

Minimum Experience: 2 Years.

Functional Duties: Analyzes functional IT requirements and design specifications for functional activities. Should provide identification/fixing for the problems within existing systems design/implementation of new systems, enhances the existing systems and participates in analysis, design and new construction of next generation communications systems. Responsible for understanding the needs of the customers and the realities of commercially available products, and creating requirements that will allow implementation by the architecture and engineering team and Commercial-Off-The-Shelf (COTS) IT products.

Minimum Education: Bachelor's Degree.

Title: Communications Systems Engineer II

Minimum Experience: 3 Years.

Functional Duties: Analyzes functional IT requirements and design specifications for functional activities. Should provide identification/fixing for the problems within existing systems design/implementation of new systems, enhances the existing systems and participates in analysis, design and new construction of next generation communications systems. Responsible for understanding the needs of the customers and the realities of commercially available products, and creating requirements that will allow implementation by the architecture and engineering team and Commercial-Off-The-Shelf (COTS) IT products.

Minimum Education: Bachelor's Degree and 5 years of experience or Master's Degree and 3 years of experience.

Title: Communications Systems Engineer III

Minimum Experience: 3 Years.

Functional Duties: Analyzes functional business IT requirements and design specifications for functional activities. Should provide identification/fixing for the problems within existing systems design/implementation of new systems, enhances the existing systems and participates in analysis, design and new construction of next generation communications systems. Responsible for understanding the needs of the customers and the realities of commercially available products, and creating requirements that will allow implementation by the architecture and engineering team and Commercial-Off-The-Shelf (COTS) IT products.

Minimum Education: Bachelor's Degree and 10 years of experience or Master's Degree and 7 years of experience.

Title: Systems Analyst I

Minimum Experience: 1 Year.

Functional Duties: Analyzes and develops communications systems possessing a wide range of capabilities, depending on technological needs. Develops plans for communications systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Provides technical and administrative direction for personnel performing system deployment, management, or upgrade tasks including the review of work products for correctness, adherence to the design concept and to user standards, and for progress in accordance with schedules. Coordinates with the Project and/or Program Manager to ensure problem solution and user satisfaction.

Minimum Education: Associate's Degree and 2 Years of Experience or Bachelor's Degree and 1 year of experience.

Title: Systems Analyst II

Minimum Experience: 3 Years.

Functional Duties: Analyzes and develops communications systems possessing a wide range of capabilities, depending on technological needs. Develops plans for communications systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Provides technical and administrative direction for personnel performing system deployment, management, or upgrade tasks including the review of work products for correctness, adherence to the design concept and to user standards, and for progress in accordance with schedules. Coordinates with the Project and/or Program Manager to ensure problem solution and user satisfaction.

Minimum Education: Associate's Degree and 5 years of experience or Bachelor's Degree and 3 years of experience.

Title: Systems Analyst III

Minimum Experience: 7 Years.

Functional Duties: Analyzes and develops communications systems possessing a wide range of capabilities, depending on technological needs. Develops plans for communications systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Provides technical and administrative direction for personnel performing system deployment, management, or upgrade tasks including the review of work products for correctness, adherence to the design concept and to user standards, and for progress in accordance with schedules. Coordinates with the Project and/or Program Manager to ensure problem solution and user satisfaction.

Minimum Education: Associate's Degree and 10 years of experience or Bachelor's Degree and 7 years of experience.

Title: Radio Frequency Systems Subject Matter Expert

Minimum Experience: 10 Years.

Functional Duties: Develops requirements from a project's inception to its conclusion for a particular communications subject matter area (i.e., simple to complex systems). Assists other project members with analysis and evaluation and with the preparation of recommendations for Radio Frequency (RF) system improvements, optimization, development, and/or maintenance efforts in the following specialties: communications systems architecture; networking; telecommunications; Land Mobile Radio; communications protocols; risk management/electronic analysis; disaster recovery; and requirements management.

Minimum Education: Bachelor's Degree and 15 years of experience or Master's/PhD Degree and 10 years of experience.

Title: Senior Radio Frequency Performance Tester

Minimum Experience: 8 Years.

Functional Duties: Performs field testing and data collection of Radio Frequency (RF) communications systems. Collects data via computerized test equipment and submits data for analysis to engineering staff. Can operate various software performance testing packages and perform analysis of collected data.

Minimum Education: High School Diploma and 12 years of experience or Associate's Degree and 8 years of experience.

Title: Radio Frequency Systems Technologist I

Minimum Experience: 2 Years.

Functional Duties: Performs field testing and data collection of Radio Frequency (RF) communications systems. Collects data via computerized test equipment and submits data for analysis to engineering staff. Can operate various software performance testing packages and perform analysis of collected data.

Minimum Education: High School Diploma and 4 years of experience or Associate's Degree and 2 years of experience.

Title: Radio Frequency Systems Technologist II

Minimum Experience: 4 Years.

Functional Duties: Performs field testing and data collection of Radio Frequency (RF) communications systems. Collects data via computerized test equipment and submits data for analysis to engineering staff. Can operate various software performance testing packages and perform analysis of collected data.

Minimum Education: High School Diploma and 8 years of experience or Associate's Degree and 4 years of experience.

Title: Radio Frequency Systems Technologist III

Minimum Experience: 8 Years.

Functional Duties: Performs field testing and data collection of Radio Frequency (RF) communications systems. Collects data via computerized test equipment and submits data for analysis to engineering staff. Can operate various software performance testing packages and perform analysis of collected data.

Minimum Education: High School Diploma and 12 years of experience or Associate's Degree and 8 years of experience.
